

Health-tech company, providing products and services for value-based healthcare

MY Synergy France is a subsidiary of MY Synergy, a health-tech company headquartered in Sofia, Bulgaria, providing IT services to the healthcare sector. At our core, we are healthcare enthusiasts committed to the betterment of patients' lives and wellbeing through digitalization. As professionals with technical backgrounds along with the experience in numerous pharma and health management projects allows us to deliver in-depth solutions to the many complex challenges facing the health industry.

We assist healthcare-related organizations, NGOs, and government organizations in their digital transition efforts and aim to increase efficiency, competitiveness, and accessibility by transitioning businesses to digital technology. Our company enables business development, optimization and digital transformation by providing expertise and digital solutions based on extensive knowledge, experience and detailed analytical information.

The complex solutions and services offered are result of a detailed analysis and tailored selection of innovative technologies to meet the specific needs and high expectations of our clients with added value to their business.

MY Synergy is a Microsoft Certified Gold Partner for Cloud Platform, Cloud Productivity and Microsoft Certified Silver Partner for Small and Midmarket Cloud Solutions under the Cloud Service Provider (CSP) program. Our company is also the first Microsoft partner onboarded for Microsoft Cloud for Healthcare specialization in CEE, key healthcare solutions and consulting provider in the same region and the only company on the Bulgarian market providing enterprise Power platform-based software development for healthcare.

MY Synergy is member and consulting partner of DHI Cluster Bulgaria since May 2019, member of Bulgarian-Swiss Chamber of Commerce and French-Bulgarian Chamber of Commerce and Industry with an active presence in the French market through its office in Paris.
